Anterior Clavicle plates

WiKo® Anterior medial Clavicle plate 3.5

6 holes
length 80 mm
width 10 mm

7 holes
length 91 mm
width 10 mm

8 holes
length 103 mm
width 10 mm

Information:

The system name WiKo® is derived from the German designation "Winkel-stabile Kombination", which translates into English as "Angle-stable Combination". This is a plating technology which offers stable locking at a specified angle. It includes all the angle-stable plates both with and without compression.

In Germany the system name WiKo® is a Registered Trade Mark of Königsee Implantate GmbH.

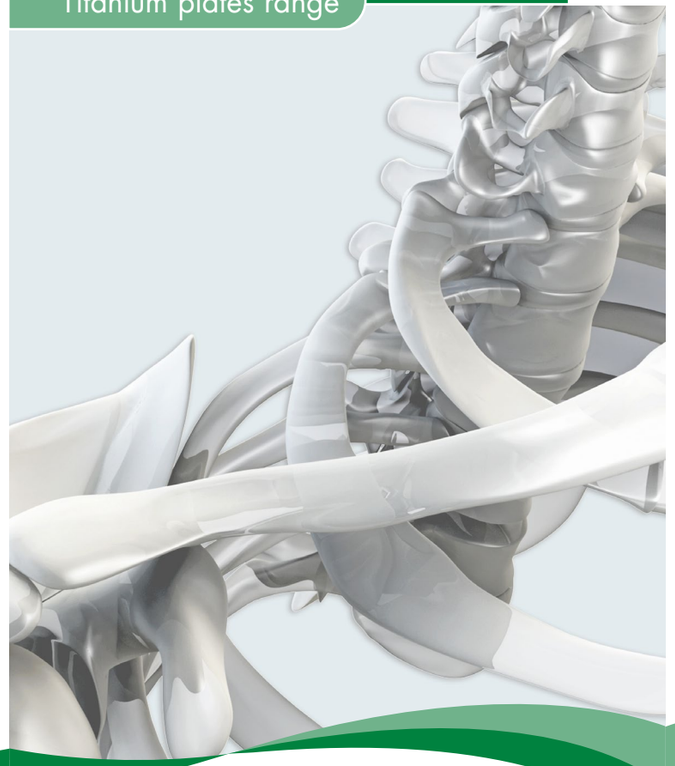
CLAVICLE PLATES

Titanium plates range



Königsee Implantate

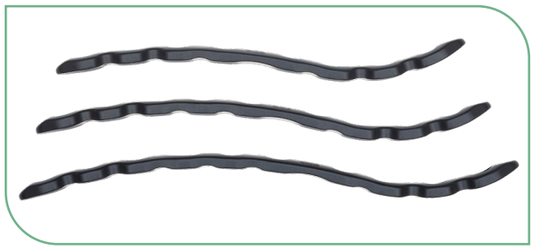
Anterior Clavicle plates

WiKo® Anterior lateral Clavicle plate 3.5

8 holes
length 105 mm
width 10 mm

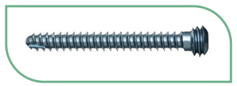
9 holes
length 117 mm
width 10 mm

10 holes
length 128 mm
width 10 mm



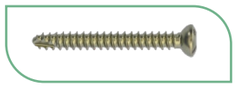
Angle stable cortical screw

Ø 3.5 mm, self tapping
length 10 - 24 mm (in set)
titanium alloy



Standard cortical screw

Ø 3.5 mm, self tapping
length 10 - 20 mm (in set)
titanium alloy



AC joint hook plates

Angle stable AC joint hook plate 3.5

offset 14/18 mm
clasp 18 mm

Variable angle stable AC joint hook plate 3.5

2/2 holes
offset 14 mm
clasp 16 mm

2/3 holes
offset 14 mm
clasp 16 mm

2/6 holes
offset 14 mm
clasp 16 mm

Lateral Clavicle plates

Variable angle stable lateral Clavicle plate 2.7

5/4 holes / length 65 mm
5/6 holes / length 82 mm
width 10 mm

Variable angle stable lateral Clavicle plate 3.5

3/4 holes / length 65 mm
3/6 holes / length 82 mm
width 10 mm

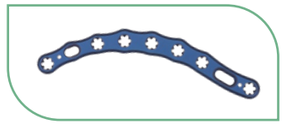
Angle stable lateral Clavicle plate 3.5

3/4 holes / length 65 mm
3/6 holes / length 82 mm
width 10 mm

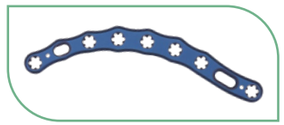
Clavicle shaft plates

Variable angle stable Clavicle shaft plate 3.5

radius 95
6/8/10 holes
length 74/99/124 mm
width 12 mm

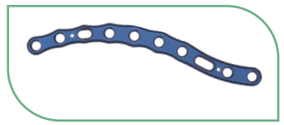


radius 70
9 holes
length 107 mm
width 12 mm



radius 105
9 holes
length 111 mm
width 12 mm

Angle stable Clavicle shaft plate 3.5



6/8/10 holes
length 74/99/124 mm
width 12 mm

Clavicle hook plates

Clavicle hook plate 3.5, standard, straight

4/6 holes
length 88/112 mm
width 10 mm
(also available in steel)

3 holes
length 82 mm
width 10 mm

Clavicle hook plate 3.5, standard, anatomic rough-bent

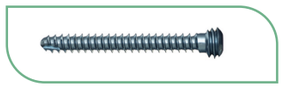
3/4/5/6/7/8 holes
length 75/86/96/
106/117/127 mm
width 10 mm
(also available in steel)

Angle stable Clavicle hook plate 3.5, anatomic rough-bent

4/5/6 holes
length 86/96/106 mm
width 10 mm

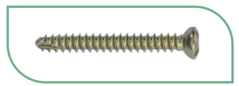
Angle stable cortical screw

Ø 3.5 mm, self tapping
length 10 - 24 mm (in set)
titanium alloy



Standard cortical screw

Ø 3.5 mm, self tapping
length 10 - 20 mm (in set)
titanium alloy

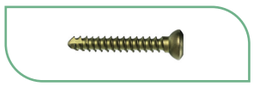


Angle stable cortical screw

Ø 2.7 mm, self tapping
length 10 - 24 mm
titanium alloy

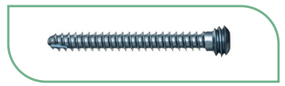
Standard cortical screw

Ø 2.7 mm, self tapping
length 10 - 20 mm
titanium alloy



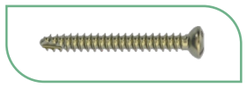
Angle stable cortical screw

Ø 3.5 mm, self tapping
length 10 - 24 mm
titanium alloy



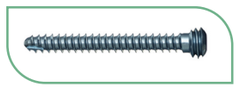
Standard cortical screw

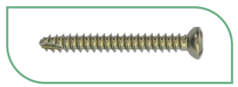
Ø 3.5 mm, self tapping
length 10 - 20 mm
titanium alloy



Angle stable cortical screw

Ø 3.5 mm, self tapping
length 10 - 24 mm (in set)
titanium alloy



Standard cortical screw


Ø 3.5 mm, self tapping
length 10 - 20 mm (in set)
titanium alloy
